

I am extremely disturbed by the Sinclair Broadcast Group and the right-wing programming that they demand their 62 stations air.

Clearly Sinclair has one mindset and that is to get George W. Bush elected President. They dictate what news or stories get covered by their affiliates and then demand that stations follow their dictates.

In April, Sinclair ordered its ABC affiliates not to air a Nightline program that was dedicated to the U.S. war dead. The showing of the photos of our honored dead was seen by Sinclair as anti-Bush.

Now, Sinclair is ordering all of its 62 stations to show a biased program called "Stolen Honor: wounds that Never Heal." This lie filled program has already been discredited as being full of untruths and outright lies about John Kerry.

The showing of this "documentary" during prime time by the 62 Sinclair stations is unfair and does not give the Kerry campaign a full 90 minutes to rebut the charges and lies. This must be given or the show must be ordered to be stopped.

Please note that Sinclair has a long history of biased, unsubstantiated reporting. I urge the FCC to step in and stop this abuse of the airwaves of our nation.
